Chennai, Tamilnadu

Education

BHARATH INSTITUTE OF HIGHER EDUCATION AND RESEARCH

CGPA – 9.32

Bachelor of Technology in Computer Science and Engineering 2021 - 2025

TSRS JUNIOR COLLEGE

Percentage - 94.6%

Intermediate (MPC) 2019 - 2021

Experience

Summer Intern - Machine Learning Project

July 2024

Ural Federal University, Russia

- Engineered a sophisticated ML model to classify voices as normal or abnormal, leveraging a dataset of 2,000 unique audio samples integrated the model into both web and mobile platforms for seamless, real-time deployment.
- Leveraged Python and advanced ML frameworks to optimize the model's performance, enhancing both its accuracy and efficiency while ensuring compatibility across multiple platforms to improve usability.
- Collaborated with an international team of 8 members, blending diverse expertise to drive the project's success, meeting strict deadlines while delivering a high-quality solution.

Projects

PHISHING ATTACK DETECTION | (Machine Learning, Python, Android, Web)

- Crafted a cutting-edge mobile application that detects phishing attacks, leveraging a robust dataset of 1,500 verified and 1,500 fraudulent links to classify URLs as safe or fraudulent with high accuracy and efficiency.
- Engineered an advanced machine learning model that analyzed and learned from the large dataset of links, enhancing detection accuracy by over 60% and significantly reducing false positives.
- Spearheaded the seamless integration of the ML model into the mobile application, optimizing performance for real-time phishing detection across multiple platforms; the project was nominated for the Kavach 2023 National Level Hackathon for its innovative approach to cybersecurity.

Certifications

- Android** - Completed Android Development course at Perfect e learning platform.
- UI/UX** - Completed UI/UX Designing course at Tutedude.
- Web** - Completed Web Development course at Pirple.

Technical Skills

Android Development(Java)

Power Bi

Web Development(HTML,CSS,JS)

UI/UX Designing(Figma)

AWS(Basic)

Deployment and Management

Python

SQL

Firebase

Achievements

- Won first place in Mobile App Development at IndiaSkills2024 for Telangana.
- Achieved second place in UI/UX designing at MNMJEC College Chennai.
- Secured first place in the Data Analytics competition at St. Joseph Engineering College.
